

Station de base pilote 5G de North Macedonia Communications

What is 5G in Macedonia?

Makedonski Telekom and A1 Macedonia launched their 5G services with a combination of 4G frequencies using DSS before the 5G spectrum auction, with the regulator, AEK, awarding the licenses for frequencies in the 700 MHz and 3.6 GHz bands for 5G in July 2022.

Makedonski Telekom invested over EUR 70 million in 2022 for network development.

Which mobile network operator in North Macedonia has the fastest mobile network?

A1 describes themselves as the leading mobile network operator and number two in the fixed-line market in North Macedonia.

They say that have the fastest mobile network in the country.

On top of this, the mobile network is becoming even faster by launching 5G.

Does A1 Macedonia have a 5G network?

By the end of 2022, A1 started building its 5G network and accomplishing coverage of 56, 6% of the total population.

Tourist centres, such as Ohrid Lake, are covered by LTE network and A1 Macedonia will continue investing in its modernisation.

What percentage of Macedonia has a 4G network?

The network covers 99.9% of the population and over 98.5% of the territory of North Macedonia.

Makedonski was the first telecommunications company in the country to introduce 4G LTE, GPRS, EDGE and various converged internet and mobile services.

How many NB-IoT base stations are installed in Macedonia?

Makedonski also revealed that it has installed 900 new NB-IoT (narrowband IoT) enabled base stations for M2M communication in the country, with capacity of the new modernized network up by 70 percent.

A1 describes themselves as the leading mobile network operator and number two in the fixed-line market in North Macedonia.

Did Makedonski Telekom perform the first 5G demo in North Macedonia?

In September 2018, Makedonski Telekom, which has the largest share of the broadband market in North Macedonia, informed that it performed the first 5G demo in the country, claiming the test results of the tests reached the highest internet speed registered.

On that occasion, the operator also claimed that the

Procedures that will enable quick and simple acquisition of approvals for construction of electronic communication networks, and in particular for deploying fibre optic infrastructure and base...
